

REGISTER TO VOTE

Register to Vote Using Federal Post Card Application

If you're active duty or an active duty spouse, you're usually recommended to vote in your "state of residency." We recommend you use the Federal Post Card Application to register and request an absentee ballot in just one form. This also makes it easier to track and protect your registration when you move.

Register to Vote Using Our Online Form

If you're not active duty, active duty affiliated, or you simply prefer to vote local where you currently live, register to vote using the form at the link below. You can also check your registration status and update your address here, too.
