VIRGINIANS BELIEVE IN SECOND CHANCES

Virginia is the only state in the country that requires people to individually petition the governor to restore their voting rights. Virginia currently has the fifth-highest number of disenfranchised citizens: Over 300,000 — 2.5x the national average — Virginians have lost their fundamental right to vote.

THIS MUST CHANGE. Our coalition is composed of several state and national organizations dedicated to righting this wrong. We are fighting for a constitutional amendment to enshrine automatic restoration of rights into Virginia's constitution.
