VOTE YES TO PROTECT OUR RIGHTS!

Amendment 1: Ensure reproductive rights

Will protect the right to make your own reproductive decisions including childbirth, contraception, abortion, fertility treatment. These rights are not currently protected by the Virginia Constitution.

Amendment 2: Protect marriage equality

Will require Virginia to recognize any marriage between two adults, regardless of sex, gender or race. Currently, Virginia's Constitution still defines marriage as between one man and one woman.

Amendment 3: End lifetime voting bans

Will restore the right to vote automatically after completion of term of incarceration for prior felony conviction. Currently this right can only be restored by individual appeal to the governor. Also, a citizen under guardianship would lose the right to vote only if a court finds they cannot understand the act of voting.
